# Enclosures and terminals

**Ensto Cubo and Ensto Clampo**

Solutions for industrial use

# Ensto at your service

We are a specialist in the field of enclosures and application-specific enclosure solutions. Our standard product range includes thermoplastic, polyester, sheet steel and aluminium enclosures and the related accessories suitable for demanding environments. These are supported by a broad selection of terminals and load break switches used by global, leading manufacturers.

Our service offering includes the customisation of standard enclosures as well as the creation of tailor-made new enclosure solutions based on the customers' product projects. We also offer assembly services as well as the sourcing of third party components.

We are a reliable and flexible partner with experienced personnel. Our strengths include good knowledge of various materials and an innovative design department.

## Certificates and standards

We have modern production facilities. Our factories have received the following certificates

- ISO 9001:2008 Quality System Certificate
- ISO 14001:2004 Environmental Management System Certificate.

We are proud of our products, which we develop and test to suit a wide range of applications in which enclosures must endure the most extreme conditions.

Ensto Cubo enclosures are certified in accordance with EN 62208. Most of our polycarbonate enclosures are also UL and cUL listed. Ensto Cubo X enclosures for hazardous areas have ATEX and IECex certificates.

Production quality assesment for equipment and protective systems intended for use in potentially explosive atmospheres, Directive 94/9/EC, VTT 07 ATEX Q 002.

## Further information

Please contact us for further information. Our contact information can be found at our web pages [www.ensto.com](http://www.ensto.com). Further information about our enclosures is also available in the more comprehensive Enclosure Catalogue publication.

# Customer-specific enclosing solutions

We are experts in providing customer-specific enclosing solutions for demanding environments. Our strategic solutions offering can be divided into customised enclosing solutions based on standard products and totally tailor-made enclosing solutions based on the customer's product projects.

Customised enclosing solutions	Tailor-made enclosing solutions	Integration services
 <ul style="list-style-type: none"> <li>• Machining such as cutting, drilling and threading according to customer's drawings</li> </ul>	 <ul style="list-style-type: none"> <li>• Feasibility studies</li> </ul>	 <ul style="list-style-type: none"> <li>• Mechanical assembly</li> </ul>

# Ensto Cubo S enclosures

## IP 66/67

Sizes 75 x 125 x 35 to 175 x 250 x 150 mm

### Ensto Cubo S enclosure in brief:

- Made of ABS or polycarbonate, transparent cover always polycarbonate
- Standard colour grey RAL 7035, cover also available in transparent
- Available with plain sides or knockouts (metric or Pg)
- Available in 36 sizes, two base depths (25 and 50 mm) and 5 different cover heights
- Cover and cover screws equipped with sealing holes
- Has slots in the base for printed circuit boards
- Available accessories include mounting plates, DIN rails, hinges and fastening lugs.

Enclosure with a low 10 mm cover and a low 25 mm base.

The cover can be sealed with a standard cover screw.

Width (mm)	Height (mm)	Depth (mm)	Inner depth (mm)	Base depth (mm)	Cover depth (mm)	Polycarbonate grey cover metric knockouts (product code, EAN 13 code)	Polycarbonate transparent cover metric knockouts (product code, EAN 13 code)	Polycarbonate grey cover Pg knockouts (product code, EAN 13 code)	Polycarbonate transparent cover Pg knockouts (product code, EAN 13 code)

Adjustable elevators are available for the base corner slots allowing the mounting of plates and panels at any height.

It is possible to mount the cover onto the back of the base of the Ensto Cubo C enclosure.

Our selection includes also ventilation devices and breathers.

Hinged front panels can also be used with two front panels that need to be smoothly opened simultaneously.

A wide range of different type of flanges is available for Ensto Cubo enclosures.

Hinged cover screws are colour coded blue. Alternatives are slotted/cross head (OLSH1) or wing head (OLWH1).

Cable spreader for 1 cable, F2CE.1.

50 mm extension frame for F2 flange, F2C50E.

# Ensto Cubo W wall cabinets IP 66/67

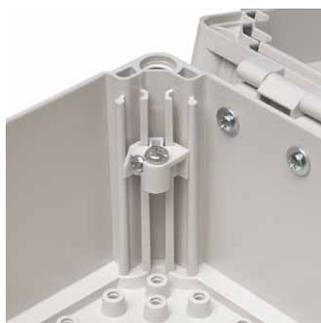

Sizes 200 x 200 x 132 to 400 x 600 x 187 mm

## Ensto Cubo W wall cabinets in brief:

- Made of polycarbonate
- Standard colour grey RAL 7035, cover also available in transparent
- Available with plain sides, Ensto Cubo W1 and W2 enclosure kits presented on page 18 are available with flange openings
- Has pre-assembled hinges and quick release latches as standard
- Available in 7 base sizes, one base depth and one cover height
- A 55 mm deep extension frame available for alternative depths in all sizes
- Is easily locked with a padlock, without any other accessories
- Based on the Ensto Cubo O enclosure series
- Most of the accessories of Ensto Cubo O can also be used for Ensto Cubo W. These include mounting plates, DIN rails, corner elevators and fastening lugs.

Adjustable elevators are available for the base corner slots allowing the mounting of plates and panels at any height.

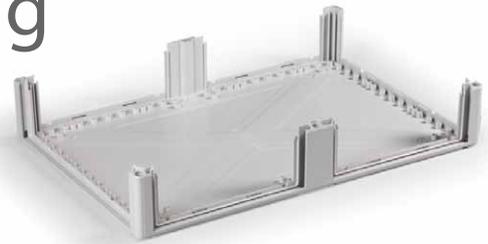

The enclosure is easily locked with a padlock, without any other accessories.

The Ensto Cubo selection also includes enclosure kits. Here the Ensto Cubo W1 package including all items needed for installation and cable entries. More information on page 18.

# Ensto Cubo P panel building system IP 65

Base sizes 300 x 300 x 102 to 400 x 600 x 102 mm

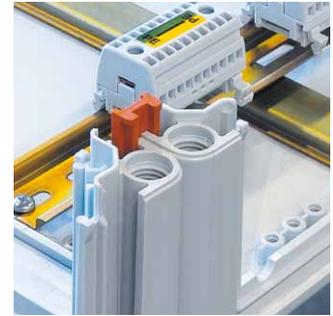

## Ensto Cubo P panel building system in brief:

- Made of polycarbonate
- Standard colour grey RAL 7035, cover also available in transparent
- Includes a base part with four totally open sides
- Base part available in 4 sizes
- Open construction in the assembly stage; easy access from all directions
- Easy and quick assembly of bases and plates with the help of quick release pins
- Easy to modify and extend into larger assemblies
- All parts are reusable
- Wide range of accessories available.

The Ensto Cubo P is an open construction during the assembly stage. The base part is totally open in four directions, enabling fast and efficient mounting.

All parts of the panel building system are assembled quickly and easy thanks to the red locking pins.

Further information available in our Panel building system brochure. Please order through our customer service or download at [www.ensto.com](http://www.ensto.com).

# Ensto Cubo G junction boxes IP 66

Size 93 x 93 x 50 mm

## Ensto Cubo G junction box in brief:

- Made of polycarbonate
- Standard colour grey RAL 7035
- Available in one size
- Equipped with metric knockouts in the base and on all four sides of the base part
- Has fixed fastening lugs
- Cover has a snap-in fit
- High degree of protection without gasket.

Protection class IP 66 has been achieved through the innovative construction of the cover, which includes a snap in fit and no gasket.

The box is equipped with fixed fastening lugs.

# Ensto Cubo R modular enclosures IP 65

Sizes 75 x 125 x 100 to 300 x 600 x 136 mm

## Ensto Cubo R modular enclosure in brief:

- Made of ABS or polycarbonate, transparent cover always polycarbonate
- Standard colour grey RAL 7035, hinged window smoke-grey as standard, also available as transparent
- Ready-assembled product
- Available with plain sides, or with Pg/metric/flange knockouts
- Has a hinged window in front, facilitating control and service of the devices located inside the enclosure
- Available in 7 sizes
- Small modular enclosures (sizes 75 x 125 x 100 to 175 x 250 x 100 mm) are available for 2, 4, 6 and 10 modules
- Large modular enclosures (sizes 300 x 300 x 132 to 300 x 600 x 132 mm) are available for 12, 24 or 36 modules
- Also suitable for humid conditions
- Both the door and the cover are lockable/sealable.

## Contents of the product package:

- Small modular enclosures (2-10 modules)
- Enclosure base
  - Cover with hinged window
  - Cover screws
  - Pre-mounted DIN rails
- Large modular enclosures (12-36 modules)
- Enclosure base
  - Cover with hinged window
  - Cover screws
  - Pre-mounted DIN rails
  - DIN rail profiles
  - Pre-mounted N/PE busbars
  - Cover plate
  - Marker

Large enclosures have a smoke-grey hinged window as standard. As an alternative, these enclosures are available with a transparent window.

The cover can be sealed with a standard cover screw.

# Ensto Cubo M enclosures IP 66

Sizes 75 x 80 x 55 to 400 x 405 x 120 mm

## Ensto Cubo M enclosure in brief:

- Made of glass reinforced polyester (GRP)
- Colour similar to grey RAL 7001
- Available with plain sides
- Available in 13 sizes
- Has superb temperature resistance (-50 °C to +140 °C) with silicone gasket (on request only)
- Has sturdy construction and high resistance to corrosion and solvents
- Is suitable for highly demanding environments such as oil refineries and the petrochemical/chemical industries
- Is difficult to machine, for which reason ordering enclosures with ready-made cut-outs is recommended
- Available accessories include mounting plates, DIN rails, wall mounting lugs and hinges.

Ensto Cubo M enclosures have plain sides and captive cover screws of stainless steel.

Machining polyester enclosures is difficult, for which reason ordering customised enclosures is recommended.

Enclosures can also be equipped with hinges (HMHI2).

Wall mounting lugs are fastened with screws to the base of the enclosure. Product code HMFL4.

# Ensto Cubo N wall cabinets IP 66

Sizes 250 x 300 x 140 to 600 x 800 x 300 mm

## Ensto Cubo N wall cabinets in brief:

- Available with plain sides or with a polycarbonate window
- Available in 7 sizes
- Superb temperature resistance
- Sturdy construction and high resistance to corrosion and solvents
- Suitable for highly demanding environments such as waste water treatment and the petrochemical/chemical industries
- Quick fixture brackets at the back allow fitting without drilling
- Built-in protective edge allows you to open the door 180° in installations and also prevents entry of water when opening the door
- Vertical patterns on the inner side of the door enables correct fitting of devices

## Contents of the product package:

- Enclosure base
- Door
- Lock and DIN 3 keys (one for each lock)
- (or 3-point closing with swing handle)

Ensto Cubo N wall cabinets have a built-in protective edge that allows you to open the door 180° while protecting the cabinet from entry of water. The quick fixture brackets at the back of the cabinet allows fitting without drilling.

Chassis for modular devices, NMC4060.54. The kit includes a metal frame with DIN rails and module cover plates.

# Ensto Cubo E wall cabinets

## IP 66, with two doors IP 55

### Sizes 200 x 300 x 150 to 1000 x 1200 x 300 mm

#### Ensto Cubo E wall cabinet in brief:

- The models of polyester painted mild steel enclosures have flange openings, standard colour grey RAL 7035
- Models of stainless steel (AISI 304) have plain sides
- The door can be opened 110° and can easily be changed from right to left-hand hinged
- Customer-specific dimensions also available in small volumes at competitive prices
- Available in stainless steel AISI 316 on request
- The available accessories include DIN rails, different locks and flanges, door stopper, fastening lugs and a rain shelter.

#### Contents of the product package:

- Enclosure base
- Door
- Cover plate(s) for flange opening(s), bolts and nuts (polyester painted enclosures)
- Mounting plate with required nuts
- M8 bolt, washers and a nut for earth connection of the mounting plate
- Earth marks
- DIN 3 lock and one DIN 3 key
- Cover plugs for mounting holes (polyester painted enclosures) and hinge holes
- Nut and washers for M6 bolts

A rain shelter is recommended if a cabinet is used outdoors.

Fastening lugs are available in depth alternatives of 20 mm (EFFL2.20) and 50 mm (EFFL2.50).

The enclosure has welded M8 bolts in the bottom of the base and M6 bolts in the door. There is also an M6 bolt for earthing on one side.

# Ensto Cubo EO wall cabinets IP 66

Sizes 190 x 240 x 138 to 480 x 960 x 248 mm

## Ensto Cubo EO wall cabinet in brief:

- Manufactured in polyester painted mild steel, standard colour grey RAL 7035
- Has flange knockouts on each side of the base
- Available in 22 sizes
- Door fitted with a quarter-turn slotted fastener
- The door can be opened 110°
- Has fixed M8 inserts for a mounting plate in the bottom of the base
- Has M6 bolt for earthing on one side of the base
- Equipped with two M6 bolts in the door for earthing
- Excellent choice for creating larger assemblies
- A wide range of accessories is available including flanges, fastening lugs and a door stopper.

## Contents of the product package:

- Enclosure base
- Door
- M8 mounting screws
- Mounting plate
- Quarter-turn slotted lock

The enclosures include flange knockouts on all four sides.

Door stopper, set, EDS2.

A 1.5 mm mounting plate complete with M8 bolts and earthing accessories are included in the delivery of standard enclosures.

Ventilation flange F2 size, EVF2A.

Fastening lug set, 20 mm high, EOFL2.20.

Fastening bolt set for F1 size flange, EO72.07.

# Ensto Cubo F terminal enclosures IP 66

Sizes 150 x 150 x 80 to 800 x 400 x 120 mm

## Ensto Cubo F terminal enclosure in brief:

- Available in polyester painted mild steel, colour grey RAL 7035, and stainless steel AISI 304
- Has plain sides. 120 mm deep polyester painted enclosures are also available with flange openings or polycarbonate window as standard
- Available in 30 sizes and in two depth alternatives
- Include a perforated support for DIN rail or mounting plate enabling the maximum use of all sides of the enclosure for cable entries
- Has M6 bolt for earthing on one side of the base
- Enclosures made of stainless steel AISI 316 are available on request
- Customer-specific dimensions also available in small volumes at competitive prices
- All versions can be supplied with hinges
- The available accessories include mounting plates, DIN rails, fastening lugs and hinges.

## Contents of the product package:

- Enclosure base
- Cover
- Cover screws with gaskets and cage nuts
- Mounting screws
- Cover plugs for mounting holes
- A M6 nut and a washer for earthing
- Earth marks
- Models with flange openings include also cover plates, bolts and washers

These enclosures include a perforated support for a DIN rail or mounting plate as standard. The optimised mounting supports enable the maximum use of all sides of the enclosure for cable entries.

120 mm deep polyester painted enclosures are also available with flange openings. The product package includes cover plates, bolts and washers.

Some standard models of Ensto Cubo F are available with polycarbonate window.

The available accessories include mounting plates, DIN rails, fastening lugs and hinges.

## Ensto Cubo F push button enclosures

We offer as a standard stainless steel enclosures with push button openings. The series includes narrow and stylish enclosures in four different sizes.

Width (mm)	Height (mm)	Depth (mm)	Inner depth (mm)	push button openings (product code, EAN 13 code)

Standard grounding can be replaced with an M10 brass internal/outer insert.

Since the Lexan window is scalable, just the right size is always available.

The enclosure can be protected from misuse by furnishing it with Ensto's locking system.

The fastening lugs can be attached in a horizontal or vertical position, or be replaced with threaded inserts. Standard grounding is placed onto one lug.

# Ensto Cubo H enclosures IP 66

Sizes 50 x 45 x 30 to 310 x 601 x 180 mm

## Ensto Cubo H enclosure in brief:

- Made of polyester painted aluminium
- Standard colour grey RAL 7001
- Available with plain sides
- Available in 29 sizes
- Meets the requirements of the machine and military industry as regards resistance to solvents, petrol and oil
- Has superb temperature resistance (-50 °C to +150 °C) with silicone gasket (on request only)
- Is difficult to machine, for which reason ordering enclosures with ready-made cut-outs is recommended
- Available accessories include mounting plates, DIN rails, wall mounting lugs and hinges.

Captive cover screws of stainless steel are included in the delivery of Ensto Cubo H enclosures. Mounting screws are integrated in the enclosure base.

Machining aluminium enclosures is difficult, for which reason ordering customised enclosures is recommended.

Enclosures can also be equipped with hinges (HMH12).

Wall mounting lugs are fastened with screws to the base of the enclosure. Product code HMFL4.

# Ensto Cubo enclosure kits

## Sizes 125 x 125 x 75 to 300 x 400 x 132 mm

### Ensto Cubo enclosure kits in brief:

- Include everything needed for installation and cable entries
- Save time and effort in choosing products, since required items can be ordered with one product code only
- Need less storage space than items required for the same solution which come in separate packages
- Easy to carry to the installation site thanks to the handle on the kit package.

Cubelo is designed for use as a small panel in dry areas, and for creating larger panel assemblies. The enclosure is suitable for both surface and flush mounting. Cubelo11KS25 includes also a narrow, space-saving two-module 25 A Ensto switch.

# Ensto Cubo T enclosed terminals

Sizes 125 x 125 x 75 to 300 x 600 x 132 mm

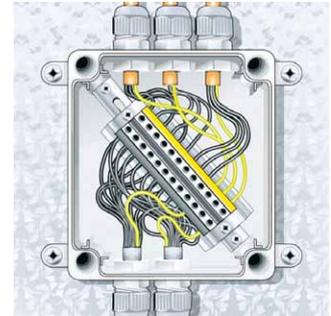

## Ensto Cubo T enclosed terminals in brief:

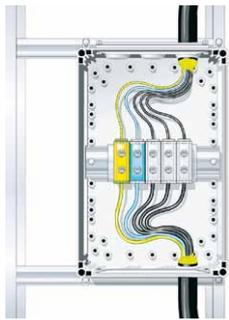

- Include everything needed for connecting wires, extending or branching cables as well as enclosing
- Available with Ensto Clampo Compact terminal blocks and Ensto Clampo Pro Universal terminals
- Include either Ensto Cubo S or C thermoplastic enclosures
- The enclosure has exactly the right dimensions in terms of the terminals and the required bending space
- Save time in choosing products, since all of the required items can be ordered with one ordering number only
- Need less storage space than items needed for the same solution which come in separate packages
- Content of the kits detailed in the table below.

# Universal terminal series for Al/Cu conductors

## Ensto Clampo Pro

### Ensto Clampo Pro terminals in brief:

- Include one-pole terminal blocks and tapping blocks that accommodate four conductors
- The 50 mm<sup>2</sup> universal terminal is also available as a three-pole terminal block
- Compact size compared to other, similar products on the market
- Suitable for both aluminium and copper conductors
- Pre-greased
- Simple, reliable construction
- Can be fixed straight onto a DIN rail or, with screws, onto a base
- Can be quickly and easily connected using one screw only.

The Ensto Clampo Pro universal terminal series includes one-pole terminal blocks and tapping blocks. The 50 mm<sup>2</sup> terminal is also available as a three-pole terminal block.

## Other components

**Ensto Clampo Apparatus** equipment terminals are used for connecting Al/Cu conductors to equipment. The terminals are suitable for one or two conductors to be directly connected. Terminals with an insulation base are also available.

**Ensto Clampo Compact** terminal blocks are an excellent and cost-effective solution for installations with limited space available. The terminal blocks are suitable for Cu conductors and they can be mounted onto a DIN rail or directly onto a surface.

**Ensto Clampo Ground** series is an extensive selection of N and PE terminals. The application range of Ensto Clampo Ground terminals is broad: low voltage switchgear and control gear assemblies, electronics industry, machine and device manufacture.

**Ensto Compact** is a complete series of load break switches with nominal currents from 16 A to 125 A. The rotary switches are compact in size and well designed. This line is based on the small frame size, available from 16 A to 63 A, and the medium frame size, available from 63 A to 125 A.

For further information on our components please refer to our web pages [www.ensto.com](http://www.ensto.com).

# Terminal sets

## Ensto Clampo

### Ensto Clampo terminal sets in brief:

- Meet the most common installation needs
- Packed in convenient retail packages
- Available for Ensto Clampo Pro universal terminals and Ensto Clampo Apparatus equipment terminals.

KE53.2T includes Ensto Clampo Apparatus equipment terminals.

KE66.2T includes Ensto Clampo Pro tapping blocks.

KE61SET includes Ensto Clampo Pro universal terminals.

KE12.20T includes Ensto Clampo Apparatus adapter terminals.

## Material:

PC = polycarbonate

ABS = acrylonitrile butadiene styrene

GRP = glass reinforced polyester

AL = aluminium

SS = stainless steel, AISI 304

PPMS = polyester painted mild steel

N/A = No information available

<sup>11</sup> Models with two doors IP 55

<sup>12</sup> Models with polycarbonate window IK 07 (-5 °C...+80 °C)

<sup>13</sup> For standard sizes. Cubo X series has scalable dimension:

- Width (from 150 to 1 000 mm) : W
- Height (from 150 to 1 500 mm) : H
- Depth (from 90 to 400 mm) : D

## Ensto

Ensto is a family business and international cleantech company specializing in the development, manufacture and marketing of electrical systems and supplies for the distribution of electrical power as well as electrical applications. We are committed to lasting sustainable development and our goal is to be the world's leading company in green energy efficiency and distribution. Our products, manufactured in seven different countries, are environmentally friendly, energy efficient and leave a minimum carbon footprint.

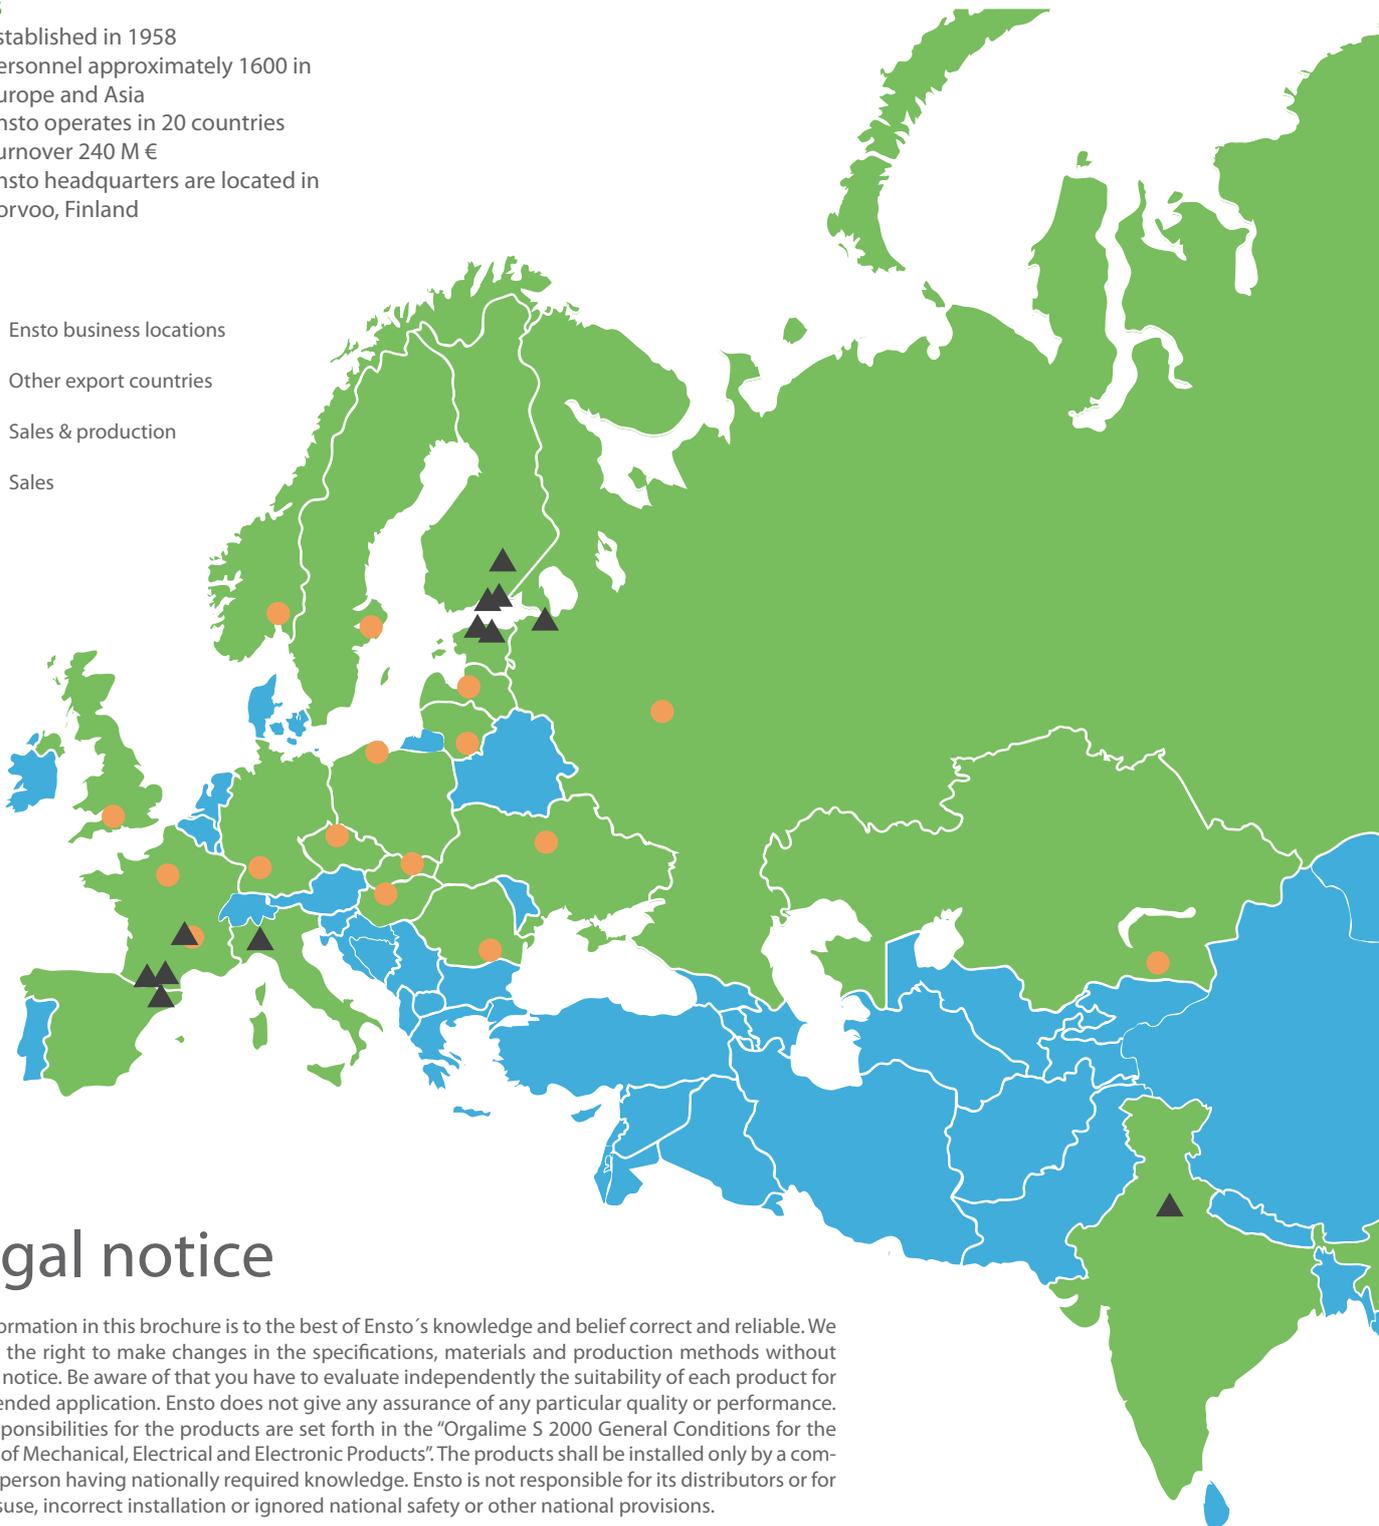

## Cleantech

Cleantech means all those products, services, processes and technologies which prevent or reduce the impacts of actions harmful to the environment. Cleantech stands for better quality, efficiency and profitability. Ensto and other Finnish cleantech companies are already at the top of the world in several key cleantech sectors.

## Facts

- Established in 1958
- Personnel approximately 1600 in Europe and Asia
- Ensto operates in 20 countries
- Turnover 240 M €
- Ensto headquarters are located in Porvoo, Finland

- Ensto business locations
- Other export countries
- ▲ Sales & production
- Sales
